

# MULTIPLY: Your Skills and Confidence

**Venue:** Face-to-face

**Start date:** To suit you

**Time:** You decide

## **Course description:**

Our free 1-1 maths courses for adults help you boost those numeracy skills that you use every day. These classes are available via pre-booked appointments with your personal tutor so you can learn at your own pace at a time that suits you.

Numeracy skills matter; improving your numeracy skills helps you get better paid jobs, improves your wellbeing and helps you manage your finances. This course can help you build your confidence in maths and help you overcome any maths anxiety with our support.

## **Course Overview:**

This 4-week course offers both learning and personal support by specialist staff tailored to meet your specific needs. You can study at your own pace, at a time that suits you, with the freedom to revisit areas of the course as little or as much as you like without having to keep the same pace as others. Our flexible start dates mean your course starts when you are ready. You will be assigned a tutor who will make contact with you prior to your course starting, we can also arrange access to on screen chat via Microsoft teams to communicate with your tutor if required.

## **Progression**

Learn in a supportive environment, with 1-1 guidance from our tutors who are skilled in bringing out your potential. As your knowledge and confidence grows on our Multiply programme, you can move onto our accredited functional skills maths qualification. This is the first step towards a new job, further education or just a new, number-confident you.

## **Learning Resources**

All of our teaching and learning activities and assessments are designed to be accessible so if you need any additional support, you can discuss this with the education experts during your enrolment journey and we will do all we can to make sure you have optimal access
